SUPPLY TELEPHONE, RADIO EQUIPMENT
TO CONSTRUCTION PROJECTS

SHIPS TELEPHONE EXCHANGES TO GES PROJECT, CUTS COSTS -- Riga, Sovetskaya Latviya, 31 Aug 51

The Riga VEF Plant has shipped a 400-line automatic telephone exchange, three 100-line telephone commutators, and a 300-line manual switchboard to the Stalingrad GES project. The plant has also shipped 800 telephone sets to the project.

Moscow, Pravda, 19 Aug 51

The Riga VEF Plant has promised to fulfill the 1951 plan by 102 percent, to increase labor productivity 3 percent above the plan, to lower the production cost of goods beyond the plan, and to save 4 million rubles. Plant workers also promised to organize the output of first-class radio receivers in 1951, and to make models of new type telephone equipment.

INCREASES TELEPHONE SHIPMENTS -- Moscow, Izvestiya, 7 Jul 51

The Molotov Telephone Plant shipped 2,400 telephone sets to the construction projects in 1950. Since the beginning of 1951, the plant has shipped 2,900 telephone sets to the construction projects.

BOOST RADIO OUTPUT -- Riga, Sovetskaya Latviya, 19 May 51

The April 1951 plan for radio-receiver output was fulfilled by 102 percent in the Latvian SSR, and production was 171 percent of the April 1950 figure.

COMPLETES 6-MONTH PLAN -- Tashkent, Pravda Vostoka, 26 Jun 51

The Tashkent Radio Parts Plant has fulfilled its plan for the first 6 months of 1951.

PRODUCES RADIO PHONOGRAPH -- Moscow, Trud. 27 Jun 51

The Berdsk Radio Plant, Novosibirsk Oblast, makes the Rekord radio phonograph.

SHIPS RADIO EQUIPMENT -- Moscow, Pravda, 7 Jun 51

The Barnaul Radio Plant filled orders for radio rebroadcasting equipment for the Volga-Don Canal and Stalingrad GES projects 10 days ahead of time.

Moscow, Pravda, 8 Jun 51

The Barnaul Radio Plant has received an order for radio amplifiers for the tall building construction projects in Moscow. Plant workers have started work on special radio equipment, and 30 sets of radio apparatus will be shipped to Moscow this month.

MAKE NEW SOUND RECORDER FOR STATE UNIVERSITY -- Moscow, Vechernyaya Moskva, 11 Jun 51

The Moscow Gosteasvet Plant has completed the first consignment of MAG-8 sound recorders and reproducers. These machines will be installed in the Moscow State University buildings now under construction.

The MAG-8 has two separate compartments for recording and reproducing, thus making it possible to play back a recording and check its quality. The amplifying equipment is powerful enough to serve an audience of 100.

PHONOGRAPH PLANT NEARS COLLAPSE -- Moscow, Vechernyaya Moskva, 19 Apr 51

The Moscow Phonograph Plant has had bad luck since it was set up 2 years ago. For a long time it lacked production space, since part of its premises was still being occupied by the former tenants. The plant was given 32 units of equipment, but it needed five or six times as much equipment to fulfill its assignment.

In 1949, the plant fulfilled only 81 percent of its plan; in 1950, only 87 percent. One of the plants of the Ministry of Agricultural Machine Building USSR had been supplying the plant with mechanisms for the phonographs, but this source was suddenly cut off recently. The phonograph plant will not be able to make enough of its own parts for assembly until the Division of Local Industry, Moscow City Executive Committee, could successfully distribute the plant's orders among other related enterprises.
